

CIVIC CENTER PROJECT

Your City. Your Civic Center. Your Voice.

Thank you to everyone who attended the Civic Center Groundbreaking Ceremony. Highlights from the event are available below where you can see members of the community joined by the City Council, State Senator John Moorlach, State Assemblyman Steven Choi, and City staff as they celebrate the start of construction on the City's 100-year home.

On Tuesday, May 16, the following item was presented to the City Council:

Design-Build Contract Award for Civic Center Parking Deck Project - City Council approved a \$7.6 million contract to ARB Structures of Lake Forest for the Civic Center Parking Deck Project. ARB will be responsible for constructing the two-level parking deck, which will include 308 parking stalls, an elevator, three flights of stairs, and infrastructure capable of installing photovoltaic (solar) panels in the future. The consultant will now proceed with the design for the parking deck, with construction to follow later this year. Expected completion of the project is in Spring 2018.
